

Give us an hour of your time, we'll give you a year's worth of custom marketing!

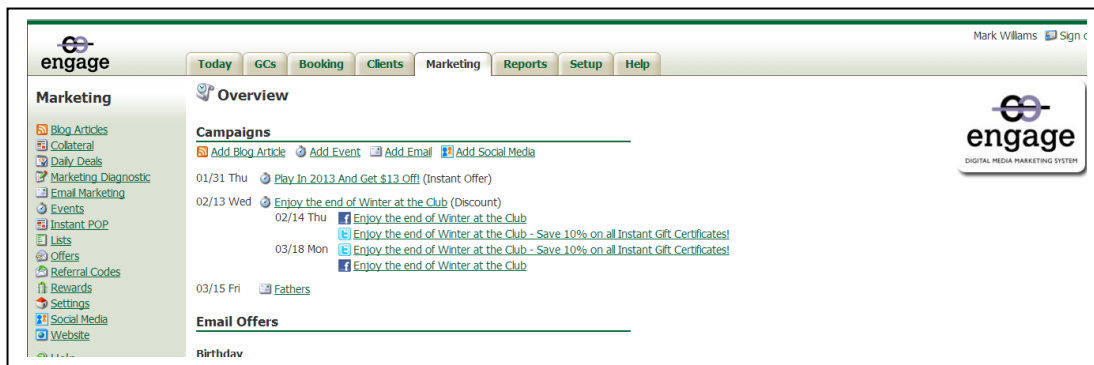

DIGITAL MEDIA MARKETING SYSTEM

Engage is a digital marketing system that will build your brand loyalty while increasing rounds and boosting revenue

Engage Customers

Make your club their first thought when they think golf. We will connect with your audience where they are—on Facebook, twitter and email. On your behalf, Engage will create 24-30 customized emails, articles and more than 100 social media posts on topics golfers care about even when they can't play. By communicating with players throughout the year, your club will play a bigger part in their lives and create more loyalty.

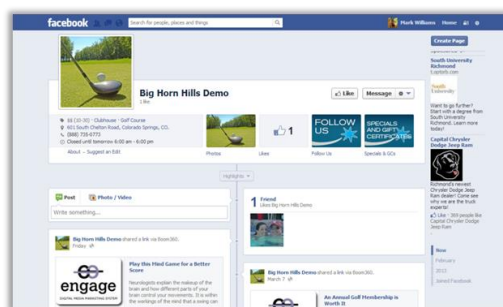

Email

Promote Your Club

Engage will create 12-14 customized promotions per year that will drive additional rounds and revenue. Promoting to a more engaged audience is much more effective and reinforces your relationship with your customers.

Convert to Revenue

The marketing system engages your client base and offers the perfect balance between communication and promotion. Engage will compel golfers to purchase pre-paid offers, buy gift certificates for their friends and bring new rounds to your golf club.
